MEMORANDUM FOR COL (b)(3)(b)(6) Commander, Criminal Investigation
Division, Victory Base Complex, Iraq

SUBJECT: Request for Criminal Investigation Division Command to Investigate a
Possible Violation of the Law of Armed Conflict by 1st Platoon, C Company, TF 1-77
Armor, 2d Brigade Combat Team, 1st Infantry Division, 30 June 1007 to 1 July 2007

1. I direct the Criminal Investigation Division Command to conduct an investigation of all possible violations of the law regarding the subject incident. I believe that the discrepancies presented in Ms. Tyson's article and the report of investigation into the incident are significant. The nature of the allegations presented in the article warrant review by Army's professional investigation unit to resolve. Enclosed is a copy of the unit's investigation into the matter.

2. Specifically, I am concerned with the following discrepancies presented:

a. In the Washington Post article, written by Ms. Ann Scott Tyson, Ms. Tyson writes (without quotations) that the Soldiers said, "they decided to kill any wounded insurgents able to move." In their sworn statements, all Soldiers deny ever making such a statement, but CPT (b)(3)(b)(6) and SFC (b)(3)(b)(6) claim in their sworn statements to have overheard SPC (b)(3)(b)(6) SPC (b)(3)(b)(6) and SPC (b)(3)(b)(6) make such a statement during an interview with Ms. Tyson.

b. In the Washington Post Article, Ms. Tyson writes (without quotations) that LT (b)(3)(b)(6) the platoon leader, had said, "Earlier, that he had shot a wounded insurgent in the head, but this time, when an insurgent on the ground raised his hand in surrender, he hesitated." Witness sworn statements collected during the investigation indicate that LT (b)(3)(b)(6) never fired his weapon.

c. In the Washington Post Article, Ms. Tyson writes (without quotations) that "the Soldiers said, at 1:35 am, as a group of insurgents was evacuating casualties to tents to the north, (b)(3)(b)(6) ordered a Bradley fighting vehicle that had arrived on the scene to open fire. Eight insurgents and five civilians, three male and two female, were later found dead in two tents, the military said." What evidence supports the Article's claims as written?

MEMORANDUM FOR RECORD

SUBJECT: Endorsement of AR 15-6 Investigation into Possible Violation of the Law of Armed Conflict by 1st Platoon, C Company, TF 1-77 Armor, 2d Brigade Combat Team, 1st Infantry Division, 30 June 2007 to 1 July 2007

1. Enclosed is the informal AR 15-6 investigation into the possible violation of the Law of Armed Conflict (LOAC) by Soldiers from 1st Platoon, C Company, TF 1-77 Armor (1/C/1-77), 2d Brigade Combat Team, 1st Infantry Division, from 30 June 2007 to 1 July 2007. The investigation was conducted by Major (MAJ) Langdon Lucas and reviewed by MAJ (b)(3)(b)(6) my Brigade Judge Advocate. I am satisfied that this report provides a sufficient description of the engagement with Anti-Iraqi Forces (AIF) near Donkey Island from 30 June 2007 to 1 July 2007, and the Soldiers' interactions with Washington Post reporter, Anne Tyson. I concur with the MAJ (b)(3)(b)(6) findings and recommendations and believe that no further investigation is needed.

2. This investigation was initiated to address possible LOAC violations raised by an article written by Anne Tyson, and printed in the Washington Post, entitled "A Deadly Clash at Donkey Island" ("the Article"). The investigation reveals that the Article, while very compelling, contains inaccuracies. I do not believe the inaccuracies were intentional. I believe they were the result of incomplete information; Ms. Tyson's confusion concerning the battle's events; and statements that a few Soldiers may have made, exaggerating their actions during the battle.

a. The Article implies that after being attacked by wounded insurgents, a few Soldiers decided they would kill all wounded insurgents, and not determine which insurgents were "out of the battle" due to injuries, or allow the insurgents the opportunity to surrender. The Article also states that Soldiers fired on insurgents evacuating their wounded.

(1) The portion of the Article that implies these possible LOAC violations appears to be the result of some possibly exaggerated comments made by a few Soldiers during an interview with Ms. Tyson. Captain (CPT) (b)(3)(b)(6) and Sergeant First Class (SFC) (b)(3)(b)(6) claimed they heard three Soldiers state they had decided to kill all wounded insurgents, and then in fact did so. However, CPT (b)(3)(b)(6) and SFC (b)(3)(b)(6) did not believe the Soldiers were being truthful, and the Soldiers who allegedly made the statements denied making them. The Soldiers did explain that after two wounded insurgents attacked them with grenades and suicide vests, the Soldiers decided to treat all insurgents as wearing suicide

SUBJECT: Endorsement of AR 15-6 Investigation into Possible Violation of the Law of Armed Conflict by 1st Platoon, C Company, TF 1-77 Armor, 2d Brigade Combat Team, 1st Infantry Division, 30 June 2007 to 1 July 2007

vests. This policy, rightfully established for reasons of self-defense and designed to dictate how the Soldiers would approach future insurgents, was a wise one; as numerous insurgents were discovered wearing suicide vests. The Article also provides evidence that contradicts the implied violation, by stating that a wounded insurgent was allowed to surrender. Lastly, detainees were taken into custody after the battle.

(2) The Soldiers testified that they did not see wounded insurgents being evacuated or medically treated. What the Soldiers did see, was armed insurgents attacking them and moving about the battlefield, and the remnants of what the Soldiers believed was medical care the insurgents were providing to each other. It appears that Ms. Tyson either incorrectly reported the Soldiers' accounts or exaggerated them.

(3) The Article contains additional inaccuracies which substantiate Ms. Tyson's confusion and inaccurate recounting of the Soldiers' statements. In the Article, Ms. Tyson writes that 2LT (b)(3)(b)(6) shot a wounded insurgent in the head. This statement is incorrect, as all of the Soldiers with knowledge stated that 2LT (b)(3)(b)(6) did not fire his weapon during the entire engagement. And Ms. Tyson quotes SPC (b)(3)(b)(6) in the Article, but she never received SPC (b)(3)(b)(6) interview.

(4) There is no evidence to substantiate the unlawful firing on or killing of a wounded insurgent during the Battle of Donkey Island. Clearly, the Soldiers who fought at Donkey Island faced a well trained and well armed terrorist force, fanatically bent on killing US Service Members. The Soldiers who fought this evil, ruthless, and determined force, acted within the Rules of Engagement and in accordance with the LOAC. During the interview however, a few of them may have failed to accurately retell their stories.

b. Unfortunately, the investigation could not determine whether noncombatant casualties were suffered; and if they were, who caused their deaths. Based on the witness statements, MAJ (b)(3)(b)(6) believes it is likely that noncombatants were killed however, he does not know by whom, and ultimately, he is not certain. Major (b)(3)(b)(6) is certain that no Soldier knowingly or intentionally killed a noncombatant. I concur with that conclusion. The body of a woman, a possibly younger female, and a possibly younger male were discovered in a tent, in the area of battle. The Soldiers, who discovered the bodies did not and could not determine the causes of death. They believed the individuals were noncombatants based on their gender, dress, and estimated age. But the Soldier were not certain where the bodies were actually located. What is clear, is the evidence establishes that no Soldier knowingly or intentionally engaged noncombatants. Without question, noncombatant casualties must be avoided. The Soldiers and Marines operating in AO Topeka are very concerned about the safety of the civilian population, and they go to great lengths to protect them everyday. Such concern was demonstrated after the battle when two Soldiers, out of respect, covered

the female casualties with a blanket. When noncombatant casualties are inflicted, it is a tragedy. Unfortunately, the enemy intentionally and continually operates amongst the civilian population, placing civilian lives in jeopardy.

3. I do not believe that Ms. Tyson intentionally reported inaccurate facts. I believe that Ms. Tyson may have received some exaggerated information, and was confused as to the battle's events, the actions of the Soldiers and the information she received. Confusion is understandable when attempting to reconstruct a battle, which was spread widely over time and territory and fought at night. The Battle of Donkey Island was chaotic, and the Soldiers who fought it did so courageously, professionally, effectively, and properly. These outnumbered Soldiers from C/1-77, destroyed a well organized, well trained, and fanatical enemy. With their courage, bravery, and proficiency, these Soldiers may have defeated Al-Qaeda's best and last effort to enter and destabilize Ramadi and Al Anbar Province.

MEMORANDUM FOR COMMANDER, FIRST BRIGADE COMBAT TEAM, THIRD INFANTRY
DIVISION, CAMP RAMADI, IRAQ, APO AE 09396

SUBJECT: AR 15-6 Investigation Findings and Recommendation

1. FINDINGS: After investigating the circumstances surrounding two incidents described by Anne Tyson in the Washington Post article titled "A Deadly Clash at Donkey Island," (Enclosure 1) I have determined the following:

a. Based on a preponderance of the evidence, it is likely that noncombatants were killed during the fighting that occurred on 30 Jun 07 and 01 Jul 07 but insufficient evidence exists to determine whether or not those noncombatants were killed by Coalition Forces (CF). Further, if noncombatants were killed by CF, the deaths were unintentional and coincident to lawful engagements conducted by CF that fully adhered to the Rules of Engagement and Law of Armed Conflict.

b. Based on a preponderance of the evidence, it is my belief that no CF soldiers unlawfully killed wounded insurgents.

2. RECOMMENDATIONS: I recommend that this investigation be closed with no further action taken.

3. BACKGROUND: (See Enclosure 2 for complete TF 1-77 Battle Summary)

a. On the night of 30 June 2007, 1st Platoon, Charlie Company 1-77 Armor came into contact with an insurgent force of approximately 40 to 60 people south of Al Tash, vicinity Donkey Island. They came under fire from the insurgent element armed with AK 47's, grenades, suicide vests, RPG's and PKC machine guns. What resulted was intense, sporadic firefights throughout the night between several elements of TF 1-77 and the insurgents. Intelligence indicates that these insurgents were well trained, organized and were planning to move into AO Tiger (targeting the most influential SOI in the area; Sheik Sattar Bazea Fythkan). Because of the actions of the TF 1-77 elements on the ground that evening, this potentially lethal insurgent group was interdicted and degraded to the point of being unable to carry out their mission.

b. The overall scheme of the battle was that 1/C/1-77 made initial contact with the enemy, and was later re-enforced by the TF 1-77 AR Scout Platoon (Saber). The C/1-77 AR Company Commander (Pain 6) arrived soon after Saber to provide command and control of the battle. All elements fought throughout the night and began to clear the area at first light the following morning. During the clearance and SSE operations, more firefights broke out, resulting in 2x US KIA.

c. From 28 Jul 07 through 1 Aug 07, Anne Tyson, reporter for the Washington Post visited AO TOPEKA and interviewed a number of the soldiers involved in the incident. On 19 Aug 07, Ms. Tyson published an article that appeared in the Washington Post titled "A Deadly Clash at Donkey Island." In this article Ms. Tyson made several statements that alluded to potential misconduct by CF during the battle. Specifically, she states that:

After that, the [1/C/1-77 AR] soldiers said, they decided to kill any wounded insurgents able to move. At 1:35 a.m., as a group of insurgents was evacuating casualties to tents to the north, [SFC] (b)(3)(b)(6) [Platoon Sergeant for 1/C/1-77 AR] ordered a Bradley Fighting Vehicle that had arrived on the scene to open fire. Eight insurgents and five civilians, three male and two female, were later found dead in two tents, the military said.

At 5:30 a.m., (b)(3)(b)(6) the platoon leader, decided to clear the entire area. Earlier, he said, he had shot a wounded insurgent in the head. But this time, when an insurgent on the ground raised his hand in surrender, he hesitated.

These comments suggest that the soldiers of 1/C/1-77 AR potentially violated the Law of Armed Conflict and Rules of Engagement by indiscriminately killing wounded insurgents. They also suggest that CF killed noncombatants.

d. Based on interviews conducted with members of 1/C/1-77 AR, no soldiers were told to kill wounded insurgents nor did they see or hear of anyone killing any wounded insurgents (Exhibits A-I).

e. Statements made by CPT (b)(3)(b)(6) and SFC (b)(3)(b)(6) claim that during the interview with Ms. Tyson, SPC (b)(3)(b)(6) PFC (b)(3)(b)(6) and SPC (b)(3)(b)(6) talked about shooting wounded insurgents (Exhibit J, K). SFC Gibson's statement also says that 2LT (b)(3)(b)(6) talked about killing wounded insurgents (Exhibit K). Neither (b)(3)(b)(6) nor (b)(3)(b)(6) believes that wounded insurgents were actually killed and attribute those statements to the soldiers boasting to the reporter who then embellished the events that occurred during the battle based on the soldier's exaggerations (Exhibits J, K).

f. Additional statements by 2LT (b)(3)(b)(6) and SFC (b)(3)(b)(6) refute CPT (b)(3)(b)(6) and SFC (b)(3)(b)(6) testimony (Exhibits L, M). Both (b)(3)(b)(6) and (b)(3)(b)(6) say that at no point during the interview did they hear anyone, specifically (b)(3)(b)(6) or (b)(3)(b)(6) make statements about killing wounded insurgents although both admit they were not present the entire time (b)(3)(b)(6) were being interviewed (Exhibits L, M).

g. Statements by SPC (b)(3)(b)(6) PFC (b)(3)(b)(6) and SPC (b)(3)(b)(6) also refute (b)(3)(b)(6) and (b)(3)(b)(6) claims (Exhibits C, D, N).

h. 2LT (b)(3)(b)(6) SFC (b)(3)(b)(6) SPC (b)(3)(b)(6) SSG (b)(3)(b)(6) SPC (b)(3)(b)(6) all stated that 2LT (b)(3)(b)(6) did not shoot a wounded insurgent because he did not fire his weapon during the entire battle (Exhibits A-C, F, G).

i. SFC (b)(3)(b)(6) states that he was asked by the Bradley Fighting Vehicle (BFV) commander on the scene (SPC (b)(3)(b)(6) 1/B/1-26 IN) to engage positively identified

insurgents near tents to the north of Donkey Island. He gave permission for this engagement and the crew fired on the insurgents (Exhibit B).

j. SPC (b)(3)(b)(6) gunner for the BFV that fired on the insurgents near the tents north of Donkey Island, states that he positively identified enemy personnel armed with AK-47s using the thermal sights of the BFV and engaged them. Further, he did not identify anyone who appeared to be unarmed in the area he engaged the armed insurgents (Exhibit O).

k. CPT (b)(3)(b)(6) SFC (b)(3)(b)(6) and SSG (b)(3)(b)(6) all believe that the tents mentioned in Ms. Tyson's article are different than the tents searched by SSG (b)(3)(b)(6) and CPT (b)(3)(b)(6) on the night of 30 Jun 07, early morning 01 Jul 07 and therefore the civilians they encountered in those tents were not the civilians found dead later on 01 Jul 07 (Exhibits J, K, P).

l. CPT (b)(3)(b)(6) believes the civilians that were found dead in the tents searched by EOD and soldiers from B/1-18 on 01 Jul 07 tents are the same civilians that he and SSG (b)(3)(b)(6) found the night prior but that they were killed by enemy fire coming from Donkey Island (Exhibit Q).

m. Based on interviews with the Explosive Ordnance Disposal (EOD) team who cleared the tents north of Donkey Island on 01 Jul 07, there were three (3) noncombatants found dead on the scene. They based this assessment on the ages and attire worn by the deceased (Exhibits R-U). Reports both during and after the battle indicate that the insurgents were dressed in a similar fashion (white dishdashas with white pants and matching running shoes, black backpacks) and none of the three noncombatants were dressed this way.

n. The EOD team members also stated that nothing they saw at the scene indicated how the civilians were killed and could not verify whether or not they were killed by CF (Exhibits R-U).

4. ISSUES AND ANALYSIS: 1) Did any CF action result in the death of noncombatants? and 2) did any CF soldier unlawfully kill any wounded insurgents? The Law of Armed Conflict prohibits the killing of combatants who are wounded and pose no further threat or who are attempting to surrender.

a. I found a number of inconsistencies between Ms. Tyson's description of the events during the battle and the After Action Reports (AAR), patrol debriefs and statements I read and heard from those involved with the fighting. Three statements made by Ms. Tyson in the article that I found compelling evidence against are listed here:

(1). "Wary after the grenade incident, (b)(3)(b)(6) recalled, he pulled out his 9mm pistol and shot the man, who then detonated his suicide vest." Although Ms. Tyson quotes SPC (b)(3)(b)(6) in the statement above, testimony from 2LT (b)(3)(b)(6) and SFC (b)(3)(b)(6) indicate that SPC (b)(3)(b)(6) was not present at the interview and never spoke with Ms. Tyson (Exhibits G, L).

(2). "At 5:30 a.m., (b)(3)(b)(6) the platoon leader, decided to clear the entire area. Earlier, he said, he had shot a wounded insurgent in the head." Statements from several

members of 1/C/1-77 AR to include 2LT (b)(3)(b)(6) say that 2LT (b)(3)(b)(6) did not shoot his weapon during the entire battle which directly contradicts Ms. Tyson's Statement above that he shot a wounded insurgent in the head (Exhibits A-C, F, G).

(3). "At 1:35 a.m., as a group of insurgents was evacuating casualties to tents to the north, (b)(3)(b)(6) ordered a Bradley Fighting Vehicle that had arrived on the scene to open fire." The BFV gunner who conducted this engagement did not see any enemy that appeared to be evacuating casualties. He saw insurgents armed with rifles both running and low crawling (Exhibit O). All others I questioned specifically about insurgents evacuating wounded during the battle state that they never saw that. Several indicated that treatment of the wounded occurred because during clearance of the objective the following morning, several wounded and dead insurgents were found wearing bandages.

b. These inconsistencies lead me to believe that Ms. Tyson could have misinterpreted statements made by soldiers during their interviews which resulted in the inconsistencies in her comments in the article.

c. Based on the evidence gathered during this investigation to include AAR, patrol debriefs, sworn statements of participants in the fighting and additional testimony of the soldiers involved, I believe that it is likely that noncombatants were killed during the fighting that occurred on 30 Jun 07 and 01 Jul 07. All soldiers but one that I questioned about the deaths of noncombatants during the battle stated they were confident that the civilians found dead near the tents to the north of Donkey Island were noncombatants (Exhibits J, K, P-V). The soldier who disagreed, SGT (b)(3)(b)(6) (HHC/1-77 AR), felt that the scene he saw at the tents on the afternoon of 01 Jul 07 was inconsistent with the normal behavior of the local populace of that area (Exhibit W). Despite SGT (b)(3)(b)(6) statement, the other testimony I received, to include that of the ground commander of the area, CPT (b)(3)(b)(6) (C/1-77 AR), indicates that the civilians were in fact noncombatants. I also believe that that insufficient evidence exists to determine who killed those noncombatants. Further, if noncombatants were killed by CF, the deaths were unintentional and coincident to lawful engagements conducted by CF.

d. The statements taken during the course of my investigation also lead me to believe that no CF soldiers unlawfully killed wounded insurgents. Early in the battle, two specific attacks by insurgents led 2LT (b)(3)(b)(6) to issue instructions that all insurgents on the battlefield should be treated as if they were wearing suicide vests (Exhibit A). The first attack occurred when an insurgent crawled toward the vehicle commanded by SSG (b)(3)(b)(6) and threw a grenade that did not explode. The second attack occurred when an insurgent crawled toward the same vehicle and detonated a suicide vest. It is unclear whether or not these two insurgents were wounded prior to being engaged by CF, but it is clear that they were demonstrating hostile intent. Testimony by CPT (b)(3)(b)(6) and SFC (b)(3)(b)(6) asserts that three soldiers, SPC (b)(3)(b)(6), PFC (b)(3)(b)(6) and SPC (b)(3)(b)(6) spoke to Ms. Tyson during a roundtable interview at JSS SUWA about the battle and claimed to have killed wounded insurgents. Those claims are refuted by the three soldiers and their Platoon Leader, 2LT (b)(3)(b)(6) and Platoon Sergeant, SFC (b)(3)(b)(6). While these statements seem to conflict I do not believe anyone is deliberately attempting to deceive anyone and I attribute the inconsistencies to the emotions stirred by the event. Further, the fact that soldiers across the battlefield that night detained and treated a number of wounded insurgents throughout the fight, to include SPC (b)(3)(b)(6) and SPC (b)(3)(b)(6) (Exhibit L) indicates to me that there was no blatant attempt to indiscriminately kill the wounded.

TF 1-77 AR DONKEY ISLAND BATTLE

SUMMARY

OVERVIEW

On the night of 30 June 2007, 1st Platoon, Charlie Company 1-77 Armor came into contact with an insurgent force of approximately 40 to 60 people south of Al Tash, vicinity Donkey Island. They came under fire from the insurgent element armed with AK 47's, grenades, suicide vests, RPG's and PKC machine guns. What resulted was intense, sporadic firefights throughout the night between several elements of TF 1-77 and the insurgents. Intelligence indicates that these insurgents were well trained, organized and were planning to move into AO Tiger (targeting the most influential SOI in the area; Sheik Sattar Bazee Fythkan). Because of the actions of the TF 1-77 elements on the ground that evening, this potentially lethal insurgent group was interdicted and degraded to the point of being unable to carry out their mission.

The overall scheme of the battle was that 1/C/1-77 made initial contact with the enemy, and was later re-enforced by Saber. Pain 6 arrived soon after Saber to provide command and control of the battle. All elements fought throughout the night and began to clear the area at first light the following morning. During the clearance and SSE operations, more firefights broke out, resulting in 2x US KIA.

This report is divided into summaries of the actions of each major element involved in the battle. It is not a chronological account, as many of the events described below happened simultaneously. All information was gathered from sworn statements from and interviews with each of the elements listed below.

1/C/1-77 AR: "PAIN RED"

1/C/1-77 (Pain Red) was conducting a recon mission of the canal south of Al Tash. The patrol consisted of 3x UAH and 9 personnel. At approximately 302115JUN07 the C/18 truck (commanded by SSG (b)(3)(b)(6)) identified 2x trucks surrounded by a group of local nationals (who appeared to be having a meeting). The patrol approached the trucks; their lights were out and were utilizing night operation devices. Upon identifying the Coalition Force patrol, the individuals around the truck immediately began to open fire with small arms, RPK and RPG fire. At this time more local nationals began to engage from in and around the truck (the leadership on the ground estimated the size of AIF force to be approximately 40 to 60 individuals).

SFC (b)(3)(b)(6) (Pain Red 7) recommended to 2LT (b)(3)(b)(6) (Pain Red 6) that the platoon bound back 50 meters to establish better standoff from the enemy. The platoon bounded back 50 meters and was pursued by the AIF, who continued to engage the patrol with heavy fire. Pain Red 7 and Pain Red 6 decided to bound back another 100 meters and establish a SBF position. At this point, Pain Red 7 sent up a report through Tiger X-Ray requesting air assets and for BN to send up a TIC (troops in contact). Pain Red 6 called Saber base and informed them of the situation. Saber 6 linked up with Pain Red at approximately 2300 to cross level ammunition. During the firefight, 2x Bradley's from B/1-26 were ordered to move to the engagement area to assist Pain Red, and 2x Apache Helicopters arrived on station. SFC (b)(3)(b)(6) coordinated with the aviation element (call sign "Attack 14") to conduct strafing runs over Donkey Island to suppress the enemy.

At approximately 010130JUL07, Pain 6 gave the order that all elements were to hold their positions until morning (because of all of the suicide vests, and grenades scattered throughout the battlefield). For the rest of the evening, the BFV's scanned the engagement area as well as Donkey Island utilizing their thermal sights.

During this time, SPC (b)(3)(b)(6) identified several AIF attempting to evacuate their downed comrades. He watched as several of them were taken from the engagement area to a nearby tent near the river. SPC (b)(3)(b)(6) marked the tent with his PEQ2 so that the BFV's could engage (this engagement resulted in 6 dead AIF, which they identified upon clearing the tent the following morning). At approximately 010530JUL07, Pain Red was ordered to clear the engagement area from their position to the north. During this time they found multiple fighting positions, large stacks of grenades, suicide vests and several dead AIF. At one point, SPC (b)(3)(b)(6) identified 1x AIF crawling toward his truck wearing a suicide vest. SPC (b)(3)(b)(6) shot the AIF with his 9mm pistol, killing him. Pain Red was relieved at approximately 010730JUL07 and returned to camp Ramadi.

TF 1-77 AR SCOUTS: "SABER"

Saber 6 (CPT (b)(3)(b)(6)) departed JSS Suwa at approximately 302125JUN07 in order to assist the platoon in contact. Saber 6 set a cordon around the engagement area, ordering one scout section (led by SSG (b)(3)(b)(6) and SPC (b)(3)(b)(6)) to set security to the south of the engagement area, and another scout section (led by SSG (b)(3)(b)(6) and SGT (b)(3)(b)(6)) to set security north of the engagement area. this At approximately 302300JUN07, Saber 6 (with an element consisting of 3x UAH) linked up with Pain Red with orders from Pain 6 (CPT (b)(3)(b)(6)) to cross level ammunition (each truck in the platoon was down to approximately 100 rounds of 7.62mm ammunition).

Around the same time as this link up occurred, 2x AH64 Apache helicopters arrived on station to provide air support. Once ammo cross load was complete, both elements continued to take heavy PKC fire from behind the two AIF trucks and Saber 6's truck was attacked with RPG fire. One of the Apache pilots (call sign Attack 14) asked Pain

Red 7 if he wanted them to engage the trucks but, at this time. Saber 6 ordered SPC (b)(3)(b)(6) and SPC (b)(3)(b)(6) (scout .50 Cal gunners) to engage the trucks. The trucks caught fire as a result of this engagement and the ammo that was hidden in the vehicles began to cook off (destroying AIF ammunition). Both Saber and Pain Red bounded back approximately 100 meters to gain better standoff from the explosions.

Saber 6 then took his element south along the canal road and dismounted in order to clear any tents and buildings in the immediate area that AIF could have retreated to. During this clearance, the element came under heavy RPG and small arms fire from North of their position. Saber 6 ordered his element to remount their vehicles and assault North. Saber 6 was then informed that Pain 6's element had taken casualties, to include Pain 6, and that he was to assume command on the ground. Saber 6 maneuvered the 2 x BFV's from B/1-26 to overwatch Donkey Island and ensured the cordon was intact while he assumed command and control in the center.

PAIN 6 AND ELEMENTS OF SABER

Pain 6 (CPT (b)(3)(b)(6)), who had been in a meeting at TF 1-77 HQ and was informed of all of this by the Battle Captain, arrived shortly after Saber 6. He positioned himself with the elements in the northern cordon (SSG (b)(3)(b)(6) and SGT (b)(3)(b)(6) in order to establish command and control. After hearing reports from Pain Red that they were receiving small arms contact from a row of tents along the river, he ordered Saber 9 (SSG (b)(3)(b)(6)) to take his section and clear the tents (where they found 1x I.N with a gunshot wound to the leg, which SGT (b)(3)(b)(6) the medic, treated).

While conducting this clearance, Pain 6's element came under heavy fire from the east and west; both west from the beach and east from Donkey Island. During which time SPC (b)(3)(b)(6) received gunshot wounds to the arm and leg and SGT (b)(3)(b)(6) received a gunshot wound to the head. Pain 6 ordered his element to assault the machine gun positions on the beach, while he attempted to flank them to secure the CASEVAC of SPC (b)(3)(b)(6) and SGT (b)(3)(b)(6). At this time, Saber 9's truck came under heavy Machine gun fire and the gunner (SPC (b)(3)(b)(6)) was injured. SPC (b)(3)(b)(6) had seen multiple AIF only a few meters from his truck. In order to establish a low enough angle to accurately engage them, he had to stand up in his turret and lift his M240 machine gun out of its mount. He was able to engage and destroy most of them, but suffered a gunshot wound to the face. Pain 6 witnessed Saber 9's truck come under fire and he and SGT (b)(3)(b)(6) attempted to move to their location dismounted utilizing 3-5 second buddy rushes. During this movement, SGT (b)(3)(b)(6) and Pain 6 were hit by small arms fire. Pain 6 ordered his element to come to his position and evacuate SGT (b)(3)(b)(6) while Saber 9 returned to the beach to in order to evacuate SPC (b)(3)(b)(6) and SGT (b)(3)(b)(6) (at which time SSG (b)(3)(b)(6) had to low crawl to their position under fire and drag SPC (b)(3)(b)(6) back to his truck).

SFC (b)(3)(b)(6) (Saber 7) moved to Pain 6's location to assist with CASEVAC. Saber 7 coordinated and supervised the placement of SGT (b)(3)(b)(6), SGT (b)(3)(b)(6) and SPC (b)(3)(b)(6) into Scout trucks and began movement back to Camp Ramadi. During this time, Attack 14 (the Apache element) called Pain Red 7 and offered the possibility of a non standard CASEVAC for SPC (b)(3)(b)(6) due to the extent of his injuries. Pain Red 7 referred Attack 14 to Saber 1 (SSG (b)(3)(b)(6)).

The MEDEVAC element, which included Saber 1 had already left, but once the possibility of a non standard air MEDEVAC was proposed, Saber 1 separated from Saber 7's MEDEVAC convoy with 3x vehicles, and set up a hasty landing zone (LZ) vicinity Obertash utilizing chem lights and IR strobes; Saber 7 continued on to Camp Ramadi in order to get SPC (b)(3)(b)(6) to C-Med. Saber 1 guided the helicopter onto the LZ and SPC (b)(3)(b)(6) was evacuated in an AH64 Apache while one of the crew members was strapped to the wing; at which time Saber 1 moved his element back to camp Ramadi in order to get SGT (b)(3)(b)(6) and SGT (b)(3)(b)(6) medical attention.

Pain 6 had his wounds assessed and had Saber 6 assume command on the ground until he regained his faculties. At this time, Pain 6 reassumed command and control of the company from OP 1. Pain 6 instructed his elements to hold their positions for the night and clear the area at first light (due to all of the reports of suicide vests, grenades and home made explosives (HME)). Sporadic gunfights continued throughout the night.

At approximately 010530JUL07, clearance of the engagement area began. Tiger 6 and his PSD (to include the TF S2) arrived that morning in order to conduct sensitive site exploitation (SSE) and situation assessment. Other elements arriving that morning included a section from the TF Mortar Platoon (Thunder), NSW, EOD and 1/B/1-18 (Predator Red).

1/B/1-18: "PREDATOR RED"

1/B/1-18 IN (Predator Red) was brought to the scene on the morning of 1 July as the security element for EOD and the ANGLICO escort initially. Once they arrived on site they discovered a large number of vehicles and personnel already on scene (estimated 60 to 70 people, 2 x BFV's, 3 x 1151's from Saber, 3 x 1151's from the PSD, a section from the Mortar Platoon, and 1x Platoon of NSW). They initially asked around to see where they were needed when they noticed a large number of rounds lying around nearby tents and SFC Buchan took a dismounted element to clear the tent area (which they did with NSTR).

When they returned SFC Buchan noticed a belt of ammunition near a knoll surrounded by reeds and bushes and went to pick it up. At this point heavy enemy small arms and grenade fire came from the reeds, hitting SFC Buchan and SSG (b)(3)(b)(6) (who was on the ground with the TF S2 (CPT (b)(3)(b)(6)) conducting sensitive site exploitation (SSE) operations). SSG (b)(3)(b)(6) threw a grenade at the AIF and ordered his men to take cover and return fire, at which time he returned to his trucks and informed his platoon leader, 1LT (b)(3)(b)(6) that there were men down. SPC (b)(3)(b)(6) (a gunner in one of the trucks) got off of his truck and relayed that message to NSW.

1LT (b)(3)(b)(6) moved his truck up to the scene and SFC Buchan's body was brought behind the truck (an NSW truck pulled in perpendicular to the front of 1LT (b)(3)(b)(6) truck to provide further cover for the medics to attend to SFC Buchan). Once SFC Buchan was behind the truck, an NSW medic and (b)(6) (an interpreter for 1/B/1-18 who had been returning fire up to this point) began working on SFC Buchan. (b)(6) conducted initial CPR on SFC Buchan.

Simultaneously SGT Droquette and SPC (b)(3)(b)(6) attempted to evaluate SSG (b)(3)(b)(6). SPC (b)(3)(b)(6) put SSG (b)(3)(b)(6) on his back and checked for blood. He deemed that SSG (b)(3)(b)(6) might be choking on his blood and rolled him back onto his side. It was at this point that SGT (b)(3)(b)(6) attempted to remove SSG (b)(3)(b)(6) Kevlar and noticed that there was a large open wound on the back of his head. The NSW medic told them that he was dead.

While SFC Buchan was being attended to, 1LT (b)(3)(b)(6) noticed 1x AIF low crawling towards the truck from the reed area. He ordered his gunner to fire. The gunner put 2 x 3 round bursts into the AIF and the AIF subsequently set off an explosive (the type of explosive could not be determined: the platoon thought it was either a suicide vest or a grenade). This detonation injured 1LT (b)(3)(b)(6) (who received shrapnel wounds to the throat) and SPC (b)(3)(b)(6) (the gunner on 1LT (b)(3)(b)(6) truck, who received burns to the neck from flaming debris). The detonation also triggered more enemy fire. 1LT (b)(3)(b)(6) then made the call to evacuate SFC Buchan. He coordinated with NSW for them to take the casualties in their trucks due to lack of room in his own. SGT (b)(3)(b)(6) rode with NSW to continue to perform CPR on SFC Buchan. The element moved back to camp Ramadi; en route back, the NSW medic informed SGT (b)(3)(b)(6) that SFC Buchan was dead.

1 Were you interviewed by Anne Tyson of the Washington Post on or about 29 or 30 Jul 2007? If so, describe anything you recall from that interview, specifically anything you discussed about wounded insurgents and noncombatants.

Yes, I was present during an interview with Anne Tyson of the Washington Post o/a 29 or 30 JUL 07. During the interview, MS. TYSON asked members of 1IC/1-77AR and SRT/1-77AR about the event surrounding the Battle of Donkey Island that occurred 30 JUN 07 - 01 JUL 07 in Al-F. She asked about details of the battle in a chronological fashion. When asking (b)(3)(b)(6) questions about AIF wearing suicide vests, SPC (b)(3)(b)(6) and SPC (b)(3)(b)(6) spoke of shooting insurgents who were wounded and possibly wearing suicide vests because of one suicide bomber who detonated near SSG (b)(3)(b)(6) vehicle and a wounded insurgent who attempted to throw a grenade. They also spoke of "double tapping" dead insurgents the next morning with their pistols, which did not happen (a single shot was fired during the clearance (b)(3)(b)(6)).

2. The TF 1-77AR Donkey Island battle summary indicates (b)(3)(b)(6) ordered SSG (b)(3)(b)(6) to clear a row of tents near the river. Describe that event to include any enemy and/or noncombatants encountered.

SSG (b)(3)(b)(6) team cleared two tents west of the canal, but not the westernmost tent, where dead noncombatants were discovered the following morning. During SSG (b)(3)(b)(6) clearance, his team discovered and detained two AIF who were providing medical aid to wounded and/or were wounded. He reported that it appeared the AIF had evacuated casualties to the tent for medical treatment.

3. The TF 1-77 AR Donkey Island battle summary indicates that civilians were encountered at the tents searched by SSG (b)(3)(b)(6) on the night of 30 Jun 07/ early morning 01 Jul 07. Patrol debriefs indicate that dead civilians were found near those same tents later on 01 Jul 07. Can you confirm or deny these reports? Were the dead civilians found on 01 Jul 07, the same that were encountered by the Saber patrol earlier that day?

The civilians encountered by SSG (b)(3)(b)(6) during the battle were not from the same tent where dead noncombatants were found during the early morning clearance on 01 JUL 07. (b)(3)(b)(6)

(b)(3)(b)(6)

4. At anytime during the action vic Donkey Island on 30 Jun 2007 and 01 July 2007 did you give or were you given orders that modified the Rules of Engagement as you understood them at the time? If so, please describe this order.

NO. At no time was ROE violated. Leaders made the best decisions given all the information available at the time to engage during hours of LIMVIS. Regarding suicide bombers, I believe 1/C/1-77AR used proper EOF measures before employing (b)(3)(b)(6) lethal force and neutralizing the threat. (b)(3)(b)(6)

It is unfortunate that soldiers were permitted to inflate facts, engineer lies, or spin the truth in the name of macho posturing with a member of the media. I recommend that prior to exposure to the media, units screen and approve personnel who are allowed to provide comments and ensure they are properly trained and refreshed on media relations. 1. Were you interviewed by Anne Tyson of the Washington Post on or about 29 or 30 Jul 2007? If so, describe anything you recall from that interview, specifically anything you discussed about wounded insurgents and noncombatants. YES, I SPECIFICALLY REMEMBER SPC (b)(3)(b)(6) PFC (b)(3)(b)(6) AND SPC (b)(3)(b)(6) TALKING ABOUT SHOOTING WOUNDED INSURGENTS. RED 6 MENTIONED IT AFTER THEY DID, BUT IT WAS THOSE THREE SOLDIERS THAT INITIATED THE CONVERSATION. I DON'T THINK IT EVER HAPPENED AS THE BRADLEY WAS THE LAST ONE TO ENGAGE ANYTHING THAT NIGHT. (b)(3)(b)(6)

(b)(3)(b)(6)

2. The TF 1-77 AR Donkey Island battle summary indicates CP (b)(3)(b)(6) (Pain 6) ordered SSC (b)(3)(b)(6) to clear a row of tents near the river. Describe that event to include any enemy and/or noncombatants encountered.

PAIN 6'S ELEMENT ALONG WITH SSG (b)(3)(b)(6) TWO TRUCKS MOVED SOUTH ALONG THE RIVER ENGAGING AIF AND CLEARING TENTS. SSG (b)(3)(b)(6) AIDED IN THE EVACUATION OF PAIN 6 AND SPC (b)(3)(b)(6) SGT (b)(3)(b)(6) PROBABLY LEFT 2 NON COMBATANTS ON THE BATTLEFIELD DUE TO OVERWHELMING ENEMY FIRE, BUT NONE WERE INJURED. 3. The TF 1-77 AR Donkey Island battle summary indicates that civilians were encountered at the tents searched by SSG (b)(3)(b)(6) on the night of 30 Jun 07 early morning 01 Jul 07. I was present at most, but not all, of the interviews with Mr. Tyson - was also present for most, but not all, of her interview with the specialists. (b)(3)(b)(6)

(b)(3)(b)(6) They first described the fight from the platoon's position. Belvin described it as looking like "Star Wars" with all the tracers going off. As the platoon assaulted in line, *(b)(3)(b)(6)* helped illustrate how intense the gunfire was. Someone (I don't remember who exactly) told Specialist *(b)(3)(b)(6)* story of shooting an insurgent with a 9mm pistol, and *(b)(3)(b)(6)* helped illustrate that point to her. He described how hard it was to hit a target with iron sights at night. In the morning, we discussed finding two insurgent fighting positions. At the first one, there were two dead insurgents, and at the second there was one dead and one wounded. SFC *(b)(3)(b)(6)* and *(b)(3)(b)(6)* described taking the detainee, binding his hands with *100 mph* tape, since we did not have zip ties readily available. They talked about how they took him to the ~~detention~~ Bradley. Lastly, while talking about clearing tents, SFC *(b)(3)(b)(6)* described the scene in one tent, with many dead enemy (I don't remember the exact number).

I was interviewed by MRS. Tyson. The topics discussed in that interview were the move ment from North to south along the Cannal road, my elements wounded, the recovery of the wounded and the Ground casevac of the wounded. No part of my interview covered wounded insurgents or noncombatants.

2. The TF 1-77 AR Donkey Island battle summary indicates CPT (b)(3)(b)(6) (Main 6) ordered SSG (b)(3)(b)(6) to clear a row of tents near the river. Describe that event to include any enemy and/or noncombatants encountered.

I did recieve such order and did search tents. The tents I searched were 800m North of the original engagement area where I believe the tent in ~~questing~~ question is located. Inside these tents I found one tent containing 5-8 women/children and one hut/tent containing 3 males with an AK-47. One of the males was wounded. We treated the wounded male and detained the men. Shortly after we came under heavy enemy fire and I lost track of the detainees.

Of the four hours I fought the night of the 30th June and the ^{6hrs} afternoon of 1 July my assessment of the enemys individual mindset was that they were there to fight to the death.

The individual who shot my gunner was a member of a three man PKC team. This team waited until my truck was within 3 meters to engage. A course of action which they surley knew would end in their death. But still they engaged us in this manner knowing ~~they could~~ this was their best chance at killing an american. By taking away our weapons stand off and ~~within their hand-grande range~~. Putting them within hand-grande range, they improved their chances of success but at the cost of their lives. This is an example of most of the indivual engagements I encountered through out the battle of donkey island.

1. Were you interviewed by Anne Tyson of the Washington Post on or about 29 or 30 Jul 2007? If so, describe anything you recall from that interview, specifically anything you discussed about wounded insurgents and noncombatants.

Yes. Ms Tyson's main theme seemed to be the actual tactical events that took place between 30 Jun and 1 Jul. She walked the battlefield with me to develop a sense of where units had maneuvered and what their actions were. She asked several questions of me pertaining to my assessment of the enemy and his actions to include whether I thought the civilians were engaged in enemy activity. I responded that, while possible, was improbable and asked how they were killed and I described how the enemy's direction and volume of fire made it the most likely cause, though I could not be sure since the conditions of the battlefield precluded a thorough (b)(3)(b)(6)

2. The 1F 1-77 AR Donkey Island battle summary indicates CPT Lauer (Pain 6) ordered SSG (b)(3)(b)(6) to clear a row of tents near the river. Describe that event to include any enemy and/or noncombatants encountered.

I received a report from Red 7 that they received SAF from the tents NE of their position. I immediately assessed those tents to be the ones to my south along the canal. In order to establish an effective SBF, I ordered SSG (b)(3)(b)(6) to clear 2 tents 1CW my HQ soldiers. I don't recall anything significant at the first tent and assessed that the presence of scared civilians precluded their involvement in the actions. At the second tent, we found what we assessed to be one wounded insurgent seeking sanctuary among civilians. We treated and detained him and were soon thereafter engaged with very heavy fire from the shoreline and Donkey Island.

Patrol debriefs indicate that dead civilians were found near those same tents later on 01 Jul 07. Can you confirm or deny these reports? Were the dead civilians found on 01 Jul 07, the same that were encountered by the Saber patrol earlier that day?

I believe they were. The civilians were alive prior to our being engaged from the shoreline and Donkey Island. At the scene later during 1 Jul, I assessed that the civilians had most likely been killed by enemy fire based on the direction and volume of that fire. Nothing Follows (b)(3)(b)(6)

4. At anytime during the action vic Donkey Island on 30 Jun 2007 and 01 July 2007 did you give or were you given orders that modified the Rules of Engagement as you understood them at the time? If so, please describe this order.

No Nothing Follows

(b)(3)(b)(6)

5. At anytime during the action vic Donkey Island on 30 Jun 2007 and 01 July 2007 or in the time since then did you see or hear of anyone who engaged a wounded insurgent? If so, please describe the circumstances surrounding the event.

I received a later report that Red platoon had engaged ~2 insurgents with suicide vests, one who detonated himself and another who appeared to be attempting a detonation. Nothing Follows (b)(3)(b)(6)

6. Do you have any other information you think may be relevant to this investigation?

Based on follow-up questions I received from Ms. Tyson through the 1/310 PAC, I believe she may still have been confused about the events surrounding the civilians. She was extremely confused about the presence of civilians and what their motivations were. I attempted to demonstrate to her why I assessed their deaths to be attributed to enemy fire, but can not be certain she understood. Additionally, it is worth noting that Ms. Tyson references statements of soldiers who were not even present at the interview, specifically SFC (b)(3)(b)(6). I attribute any inaccuracies to be ~~stay~~ to be a function of her overall confusion with the events. Nothing follows (b)(3)(b)(6)
